

## POWERING THE WORLD'S ENERGY NETWORKS FROM THE GROUND UP.

### KEY FIGURES

**75**  
Countries

**60%**  
Exports

**7 PLANTS**  
Across the GCC

### OUR FACILITIES INCLUDE

**Ducab Jebel Ali | Dubai**

**Ducab HV and EHV | Dubai**

**Ducab Musaffah Factory M1 | Abu Dhabi**

**Ducab Metals Copper Rod Plant M1  
| Abu Dhabi**

**Ducab Musaffah Factory M2 | Abu Dhabi**

**Ducab Metals Aluminium Rod Plant  
KEZAD | Abu Dhabi**

**National Cable Factory | Oman**

As industries evolve and infrastructure demands grow more advanced, Ducab Group continues to deliver solutions that enable reliability, scale, and long-term performance.

Ducab Group, equally owned by ADQ and ICD, is a leading UAE-based end-to-end provider of energy and industrial solutions, supplying high-quality cables and metals to customers in more than 75 countries. With seven advanced manufacturing facilities and a strong export footprint, the Group supports critical sectors including energy, construction, oil and gas, transportation, healthcare, and defence through globally certified, high-performance solutions.

Ducab Cable Business (DCB) is a subsidiary of the group and a leading manufacturer of copper and aluminium power cables and wires. With a portfolio of over 85,000 specialized cable variants spanning low, medium, high, and extra-high voltage applications, DCB delivers reliable, safety-driven solutions for infrastructure projects worldwide, supported by state-of-the-art production facilities and extensive project experience.

Ducab Metals Business (DMB), another subsidiary of the Group established in 2020, is a provider of industrial-grade copper and aluminium products, including overhead conductors, rods, strips and more, serving a diverse range of industries such as healthcare, packaging, and electric mobility.

Operating two modern facilities with a combined capacity exceeding 300,000 tonnes per annum, DMB focuses on customer driven manufacturing, downstream expansion, and sustainable practices, delivering high-quality metal solutions aligned with evolving global industry requirements.

**DUCAB OFFERS WORLD-CLASS PRODUCTS AND SERVICES, SERVING A WIDE VARIETY OF INDUSTRY VERTICALS.**

## **METALS**

**Copper rod and wire**

**Bare copper conductors**

**Tinned copper wire**

**Aluminium EC & alloy rods, wires**

**Aluminium and copper annealed wires**

## **OIL AND GAS**

**MV cables for OGP industries**

**Lead sheathed power, control and auxiliary cables**

**Instrumentation and pilot cables**

**PetroBICC cables with Polyamide sheath**

## **UTILITIES AND CONSTRUCTION**

**Ducab HV/EHV up to 400 kV**

**Ducab PowerPlus MV cables**

**XLPE Insulated low voltage cables**

**PVC and XL-LSZH insulated wiring cables**

**Ducab SmokeMaster LSZH cables**

**DuFlex flexible cables**

**DuPan panel wires**

**Control Cables**

**Fire rated cables (FlamBICC 1,2,3,4,6)**

**Instrumentation and pilot cables**

## **SPECIALISED CABLES AND ACCESSORIES**

**Ducab FlamBICC | Fire performance cables**

**Ducab RuBICC | Flexible rubber cables for industrial and other applications**

**Ducab MarineBICC | Maritime vessel cables for shipboard and offshore power cables**

**Ducab NuBICC | Sixty-year certified cable lifetime for nuclear power plants**

**Ducab SolarBICC | Cables and wires for solar plants and solar panel systems**

**Ducab RailBICC | Complete railways solutions**

**Ducab PetroBICC | Cables with Polyamide sheath for OGP and petro-chemical industries solutions**

**DuFlex Cables | Flexible cables**

**Arctic Cables | Low temperature cables**

**Ducab Connect | Cable components and accessories**

**THHN/THWN | Nylon coated wires according to American UL standards**

**Flat Cables | Domestic building wiring**

**Defence Cables | Maritime vessel cables for the UK defence applications**

**DuPan Wires | Heat resistant flexible wires for panel wiring**
